

# Cloud in 30 Days or Less

for Healthcare Providers

Taking your business to the cloud and beyond!

## SOLUTION BRIEF

Techolution's experience in digital transformation for healthcare software providers will help your applications scale to meet growing consumer demand

### Service Overview

Healthcare companies are currently unable to respond to their clients fast enough because of outdated applications and infrastructure.

Techolution provides the solution by helping you set up cloud in 30 days or less. We will set up a scalable cloud environment with an application of your choice to validate your future cloud strategy based on healthcare cloud best practices.

### Techolution's Cloud Solution

In 30 days or less, your cloud environment will include:

- Automated Infrastructure Provisioning - Terraform or equivalent Infrastructure as Code
- CICD Pipeline with Governance & Policy Automation
- HIPAA Compliant Cloud
- Application of your choice (up to 2 microservices) migrated as part of this pilot.
- \$1,000 in Google Cloud Credit
- Migration of Represented Data Set in its Future State for Pilot

### Techolution Value Propositions

#### Infinitely Scalable Apps and Infrastructure on Demand

Eliminate capacity limitations for clients

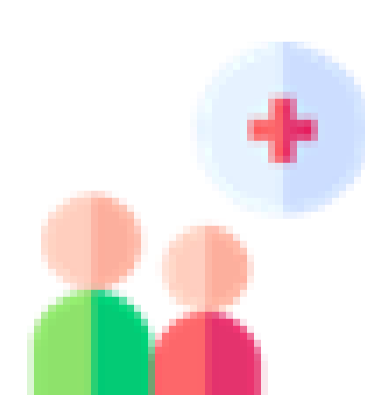

#### Faster Time to Market

Cut application and workload migrations from months to weeks

#### Lower CapEx Costs

Decrease costs and supports ROI via strategic shift from Capex to Opex

#### Respond to Growing Demands

Support transformation from system-driven model to patient-centric model

#### Guaranteed Security & Privacy

Ensure secured, GDPR and HIPAA-compliant data sharing
