

AutoAI solution addresses specific data needs through customization for organizations who look to integrate and maintain AI

AutoAI Service Overview

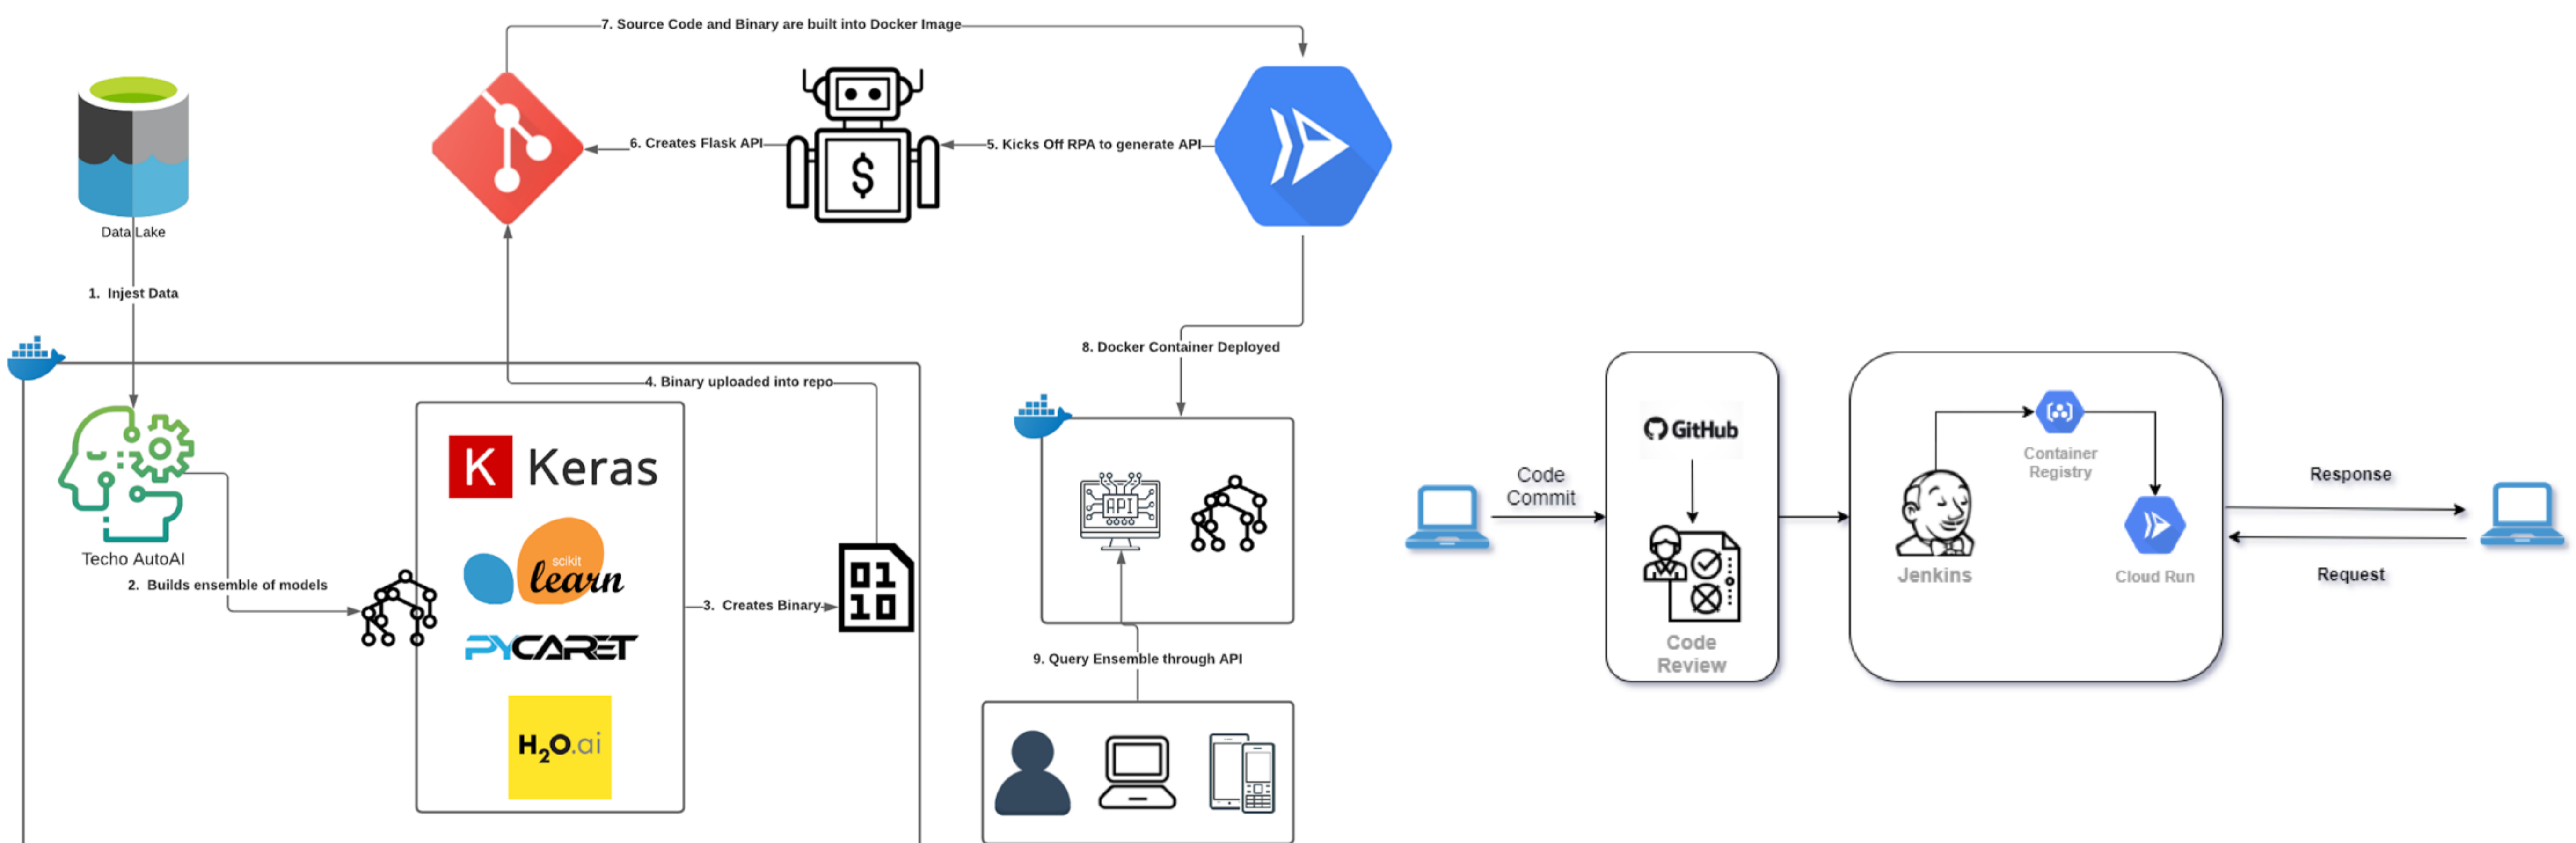

Problems with organizational AI integration:

- Data distributed is dirty & requires messaging
- Development requires skilled data scientists
- Maintenance requires continuous training pipelines which don't always offer better models with more data

Our Solution

<p>0 to AI at 2x the current SOTA rate using internal data science teams</p>	<p>Reduce model development to production deployment lifecycle by 50% or more</p>
<p>MLOps from the start to operationalize AI deployments</p>	<p>Cost saving with open source free libraries</p>

Understanding Our AutoAI Architecture

Techolution Value Propositions

<p>Access to our AI center of Excellence</p> <p>Leverage top AI/IoT talent including published data scientists and AI specialists with expertise in deep learning and GPU computing for data science, signal/ image processing, etc.</p>	<p>Continuously Integrated Dev Support for R&D</p> <p>Techolution provides managed agile/scrum teams equipped with developers, Cloud DevOps/ MLOps experts and quality assurance</p>	<p>Project Management and Subject Matter Expertise</p> <p>Our R&D-as-a-service engagement model includes a dedicated project manager and a subject matter expert to translate requirements into functional development stories</p>
